

The Herschel **Select XL Glass** panel heater forms part of our high performance frameless **Select XL** range. It is ideally suited to both the commercial and domestic sector including homes, hotels and any environment where stylish looks are important. Select XL Glass units are especially popular in bathrooms and kitchens. All units combine higher energy efficiency with an improved level of heating comfort compared with other heating systems.

The **Select XL Glass** is available in two sizes with a black or white glass finish. Available wattage is 500 or 700 Watt units giving a heated area of 9-12 and 13-15m² respectively.

All units use Herschel COSIX © Cell Technology and have an aluminium rear case incorporating Herschel's EASY-FIX mounting system. The front emitting surface is safety glass.

The Select XL panels are specifically designed to be maintenance free and to last for many years. For this reason, and to enable accurate temperature control and efficiency, the panels do not have any in-built controls and must be used in conjunction with Herschel iQ controls or equivalent. This will also ensure full compliance with European energy saving regulation (ERP Lot 20).

TECHNICAL DETAILS

- SURFACE: ESG 6mm Safety Glass
- COLOUR: White* or Black *note: this is a glass panel and not pure white
- HEATING ELEMENT: Herschel COSIX© Cell Technology
- REAR PANEL: Aluminium with Herschel EASY-FIX System
- FRAME: Frameless
- SURFACE TEMPERATURE: App. 85°C - 95°C
- VOLTAGE: 220-240 V, 50/60Hz
- PROTECTION CLASS: IP 45
- CABLE: 2.5m power cable
- INSTALLATION: Wall mounted

WARRANTY: 5 years
(Refer to the warranty policy on Herschel-infrared.com for more detail including exclusions)

AVAILABLE MODELS

Model	Part No.	Dimensions	Weight	Rated Power	Heated Area
SELECT XL GLASS	HS500-GW	60 x 100 x 2.5cm	14.5kg	500W	9-12 m ²
	HS500-GB	60 x 100 x 2.5cm	14.5kg	500W	9-12 m ²
	HS700-GW	70 x 130 x 2.5cm	22.3kg	700W	13-15 m ²
	HS700-GB	70 x 130 x 2.5cm	22.3kg	700W	13-15 m ²

6 REASONS WHY

- ✓ 100% natural
- ✓ Heats objects, not the air
- ✓ Less damp and mould
- ✓ Reduced energy use
- ✓ Maintenance free
- ✓ CO2 free when used with renewable energy

The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

The Select XL panel comes with one EASY-FIX mounting bracket. When installed, the front of the panel will extend a total of 5cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Refer to installation instructions for full details.
